## 3 ASSICURAZIONI INCLUSE

**ARIALUCE 40** è il modello Arialuce adatto a piccoli ingombri.

La sua caratteristica fondamentale consiste nella particolare asola lunga presente nella stecca, che permette, ad avvolgibile abbassato, una significativa aerazione e illuminazione dell'ambiente, a differenza dell'avvolgibile tradizionale. La dimensione del foro (altezza 3 mm, larghezza 90 mm), favorisce, a tapparella abbassata, l'agevole riciclo dell'aria all'interno dell'abitazione e, nel contempo, l'entrata della luce solare.
